

US-4

As an HKU member, I want to reserve accommodation and manage my reservations, so that I can make decision on rental contract.

Sprintable stories:

1. As an HKU member, I want to make reservations on my target accommodation, so that I can ensure living in the accommodation for school.
 - i. After viewing the accommodation, provide a reservation function for members
 - ii. Get the details from HKU members (Accommodation id, member id, member name, member email, member phone) in the form type for the reservation
 - iii. Upload the reservation from HKU members to the server to synchronize the data of all devices using the server.
2. As an HKU member, I want to cancel accommodation, so that I can remove misapplied and unwanted reservations for changes.
 - i. Perform removal of record for reservations by HKU members.
3. As an HKU member, I want to view my reservations, so that I can determine which accommodation has been reserved and ensure the reservation details is correct.
 - i. Provide the checking function for individual reservation depends on the member ID.

US-5

As a CEDARS Accommodation Specialist, I want to receive notifications for reservations and cancellations, so that I can manage the contract signing process efficiently.

Sprintable stories:

1. As a CEDARS Accommodation Specialist, I want to receive notifications for reservation, so that I can manage them promptly.
 - i. Receive notification messages in list of “New notification list” when HKU members make reservations
 - ii. Receive notification messages in list of “New notification list” when HKU members cancel the reservations

US-6

As an HKU member, I want to provide feedback on accommodation after the contract, so that I can express my feelings about the accommodation to the public.

Sprintable stories:

1. As an HKU member, I want to rate and comment on the reserved accommodation after the staying period is expired, so that I can express my feelings to the accommodation.
 - i. Create a feedback page for each reservation after the contract period is finished
 - ii. Create a top-down menu in the feedback page with a rating of 0-5 (0 is the worst and 5 is the best) for rating the living quality in the accommodation
 - iii. Create a comment text field in the feedback page for Members to give out comment to the accommodation.
2. As an HKU member, I want to upload the feedback to the accommodation page, so that other HKU members can view the feedback before the reservation.
 - i. When the feedback is submitted, the feedback is uploaded to the server.
3. As a CEDARS accommodation specialist, I want to delete inappropriate feedback, so that HKU members can view feedback which is useful for the reservation.
 - i. Create removal function for each feedback for the rating system
